

**Intergovernmental Eleventh Regional Environmentally
Sustainable Transport (EST) Forum in Asia**

**2-5 October 2018
Ulaanbaatar, Mongolia**

Sustainable Urban Design and Development ~ Role of EST

Country Report

(Draft)

< Malaysia >

This country report was prepared by the Government of Malaysia as an input for the Eleventh Regional EST Forum in Asia. The views expressed herein do not necessarily reflect the views of the United Nations.

11th Regional EST Forum in Asia, 2-5 October 2018, Ulaanbaatar, Mongolia

Country EST Report (covering from Lao EST Forum 2017 to Mongolia EST Forum 2018)

a) Name of the Country: **MALAYSIA**

b) Name, Designation and Line Ministry/Agency Respondent:

- **Ms. Rosnina binti Yaacob**
Deputy Under-Secretary
Ministry of Transport

c) List other Line Ministries/Agencies contributing to preparation of the Country Report: **Malaysia Green Technology Corporation(Greentech)**

d) Reporting period: **2017-2018**

With the objective of demonstrating the renewed interest and commitment of Asian countries towards realizing a promising decade (2010-2020) of sustainable actions and measures for achieving safe, secure, affordable, efficient, and people and environment-friendly transport in rapidly urbanizing Asia, the participating countries of the Fifth Regional EST Forum in Asia discussed and agreed on a goodwill and voluntary declaration - “**Bangkok Declaration for 2020 – Sustainable Transport Goals for 2010-2020.**” At the Seventh Regional EST Forum held in Bali in 2013, the participating countries adopted the “**Bali Declaration on Vision Three Zeros- Zero Congestion, Zero Pollution and Zero Accidents towards Next Generation Transport Systems in Asia**” reinforcing the implementation of Bangkok 2020 Declaration (2010-2020) with emphasis to zero tolerance towards congestion, pollution and road accidents in the transport policy, planning and development. Bali Vision Three Zeros calls for a paradigm shift in thinking on the role of motorization and mobility in realizing sustainable development in Asia. In the Eight Regional EST Forum in Colombo, member countries adopted the “**Colombo Declaration**” for the promotion of next generation low-carbon transport solutions in Asia. Subsequently, EST Forum held in Vientiane, Lao PDR in 2017, the member countries adopted the “**Vientiane Declaration on Sustainable Rural Transport towards Achieving the 2030 Agenda for Sustainable Development.**”

*Each member country of the Forum is kindly requested to prepare a consolidated country report (by **15 August 2018**) reflecting how EST trends and developments have taken place in the country from Lao EST Forum 2017 to Mongolia EST Forum 2018 around the Goals of the Bangkok 2020 Declaration as an interim assessment following the below format. You are most welcome to add extra pages or sections to share any major on-going initiatives or future plans, including mega transport projects, transport master plans, special transport corridor development, expansion of railways and rail route developments, etc.*

The objective of the country reporting is to share among international community the voluntary progress/achievements/initiatives include various challenges faced by countries in implementing each of the underlined goals of the Bangkok 2020 Declaration to realize the Bali Vision Three Zeros,

11th Regional EST Forum in Asia, 2-5 October 2018, Ulaanbaatar, Mongolia

the Colombo Declaration and the Vientiane Declaration. This would help development agencies, donors, development banks in assessing the sustainable transport needs and challenges to better devise their existing as well as future capacity building programs and operations in sustainable transport areas.

Timeline for submission by 15 August 2018.

by email to: est@uncrd.or.jp

Goal No.	Goal Description	Voluntary Progress/Achievements/Major Initiatives, including any transport master plans, development of special transport corridors, in Implementing the Bangkok 2020 Declaration from the Lao EST Forum 2017 to the Mongolia EST Forum 2018.		
I. Strategies to <u>Avoid</u> unnecessary travel and reduce trip distances				
“Avoid” Strategy	1	Formally integrate land-use and transport planning processes and related institutional arrangements at the local, regional, and national levels	Any action had been taken so far? <input type="checkbox"/> Not yet <input type="checkbox"/> Some progress (design – piloting) <input checked="" type="checkbox"/> Largely in Place <input type="checkbox"/> Fully Completed (Please Check the box)	Barriers/Challenges faced in implementation:
			Please add few specific examples of initiatives, pilot projects, major policies or programmes developed or under development (or) any major investment decisions. Please attach reports or include websites where relevant. 1. Policy Guidelines for Transit Oriented Development (TOD) completed on 26 Nov 2014. 2. The 3 rd National Physical Plan was launched by the then Prime Minister on 8 Jun 2017. 3. The National Physical Plan (NPP) has identified four (4) Conurbations or City Regions that shall be planned and developed as integrated regions. 4. Land use plan is highlighted in Land Public Transport Master Plan (http://www.mymrt.com.my/cms/upload_files/report/report_download_000032.pdf)	

11th Regional EST Forum in Asia, 2-5 October 2018, Ulaanbaatar, Mongolia

Goal No.	Goal Description	Voluntary Progress/Achievements/Major Initiatives, including any transport master plans, development of special transport corridors, in Implementing the Bangkok 2020 Declaration from the Lao EST Forum 2017 to the Mongolia EST Forum 2018.	
		<p>Examples of important actions that you plan to carry out in next year</p> <ol style="list-style-type: none"> 1. To optimize utilization of land and natural resources for sustainable development including transport. 2. TOD Projects at selected LRT Stations developed by SPNB in Klang Valley. <hr/> <p>What importance does this particular EST Goal attach in your country's on-going efforts in achieving (a) the Sustainable Development Goals (SDGs), (b) New Urban Agenda, and (c) Paris Climate Agreement?</p> <ol style="list-style-type: none"> 1. To achieve SDG Goal 9 which is to be connected. 2. To achieve SDG Goal 13 which is to reduce carbon emission causes by transportation. 	
"Avoid" Strategy	2	<p>Achieve mixed-use development and medium-to-high densities along key corridors within cities through appropriate land - use policies and provide people - oriented local access,</p> <p>Any action had been taken so far?</p> <p><input type="checkbox"/> Not yet</p> <p><input type="checkbox"/> Some progress (design – piloting)</p> <p><input checked="" type="checkbox"/> Largely in Place</p> <p><input type="checkbox"/> Fully Completed</p> <p>(Please Check the box)</p>	Barriers/Challenges faced in implementation:

Goal No.	Goal Description	Voluntary Progress/Achievements/Major Initiatives, including any transport master plans, development of special transport corridors, in Implementing the Bangkok 2020 Declaration from the Lao EST Forum 2017 to the Mongolia EST Forum 2018.	
‘Improve’ Strategy	9 Set progressive, appropriate, and affordable standards for fuel quality, fuel efficiency, and tailpipe emissions for all vehicle types, including new and in-use vehicles	Any action had been taken so far? <input type="checkbox"/> Not yet <input type="checkbox"/> Some progress (design – piloting) <input checked="" type="checkbox"/> Largely in Place <input type="checkbox"/> Fully Completed (Please Check the box)	Barriers/Challenges faced in implementation:
		Please add few specific examples of initiatives, pilot projects, major policies or programmes developed or under development (or) any major investment decisions. Please attach reports or include websites where relevant. Department of Environment (DOE) Malaysia is currently review the current exhaust emission standards and regulation to have a more stringent and comprehensive regulation for all types of motor vehicles including new model and in-use vehicles. <u>Additional Initiatives:</u> i. The National Green Technology Master Plan has stated promotions to the usage of biodiesel, higher fuel standard and compressed natural gas. ii. Implementation of the petrol RON97 (Euro4M) requirements of the Government's initiative to improve air quality. ii. Enforcement of 7 Acts under the United Nations (UN), related to vehicle emission and sound of the motor vehicle controls via the process of Vehicle Type Approval (VTA).
