

EST Inception Meeting

13-14 September 2004
Phnom Penh, Cambodia

1. Background

While transportation is essential to Asia's socio-economic needs, balancing these needs with the need to protect the environment should be at the heart of the concept of environmentally sustainable transport (EST). Generally, EST is considered as transport that meets the needs of the present without preventing future generations from meeting their needs. Although there is no single, commonly held definition of EST, the concept of EST is centered on the transportation system and transportation activity that meets social, economic and environmental objectives.

The Manila Policy Dialogue on Environment and Transport in the Asian Region, held from 16-17 January 2004 in Manila, Philippines, helped translate recommendations made in relation to the transport and environment sector in the Johannesburg Plan of Implementation (JPOI) and the Nagoya EST Conference into actions at local, national, and regional level, by (i) looking into transport and environment related issues, with a priority focus to issues relating to monitoring of air quality, reduction of emissions from in-use vehicles, fuel quality, and environmentally friendly public transport planning; and (ii) making recommendations towards the promotion of EST in Asia, through the adoption of the Manila Statement.

In the Manila Statement, UNCRD was requested by participating Asian countries to assist them in (a) the formulation of National EST Strategies-cum-Action-Plans, and (b) the establishment of a Regional EST Forum and subsidiary expert groups. As a follow-up to the Manila Conference, UNCRD has initiated contact with relevant partners and stakeholders to formulate national strategies-cum-action plans for Viet Nam, Cambodia, and Laos, as the first phase countries. Preparations are also being made for the first Regional Forum meeting in August 2005.

2. Objectives

The EST Inception Meeting will be the first country level stakeholders meeting, in which the formulation process for the National EST Strategy-cum-Action-Plan will officially commence.

The objectives of the EST Inception Meeting are to discuss and finalize:

- (a) the detailed work programme/activities/timeframe for the preparation of the National EST Strategy-cum-Action-Plan;
- (b) institutions to be involved in the process;
- (c) identification & role of Collaborating Centre
- (d) MoU/Agreement, including funding arrangements and generic guidelines towards formulation of the National EST Strategy-cum-Action Plan.

3. Date & Venue

13-14 Sep 2004, Phnom Penh
(Monday & Tuesday)

4. Organizers

Ministry of Environment (MoE)
Ministry of Public Works & Transport (MPWT)
United Nations Centre for Regional Development (UNCRD)

5. Participants

1st Day: MoE, MPWT, the Collaborating Centre, and UNCRD.

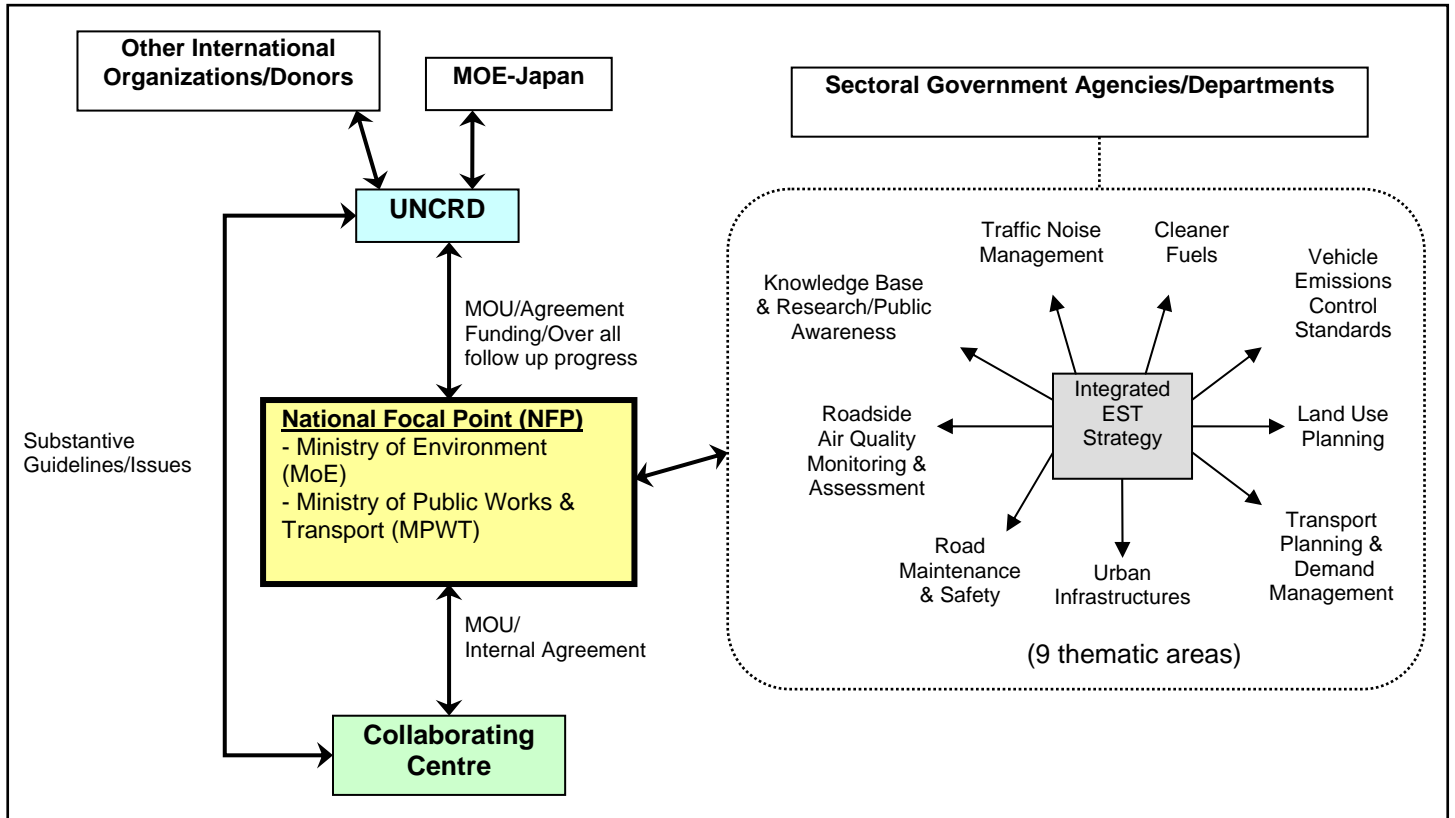

2nd Day: Above participants + representative from other Departments/Ministries (please see below*)

*The other participants for the 2nd Day meeting could include government agencies/institutions/NGOs/Research Institutions associated in the areas of: cleaner fuels, vehicle emission control, vehicle inspection & maintenance, land use planning in transport sector, transport demand management, road safety & maintenance, traffic noise management, road side air quality monitoring, urban/road infrastructure, and public health issues linked to transport/vehicular pollution.

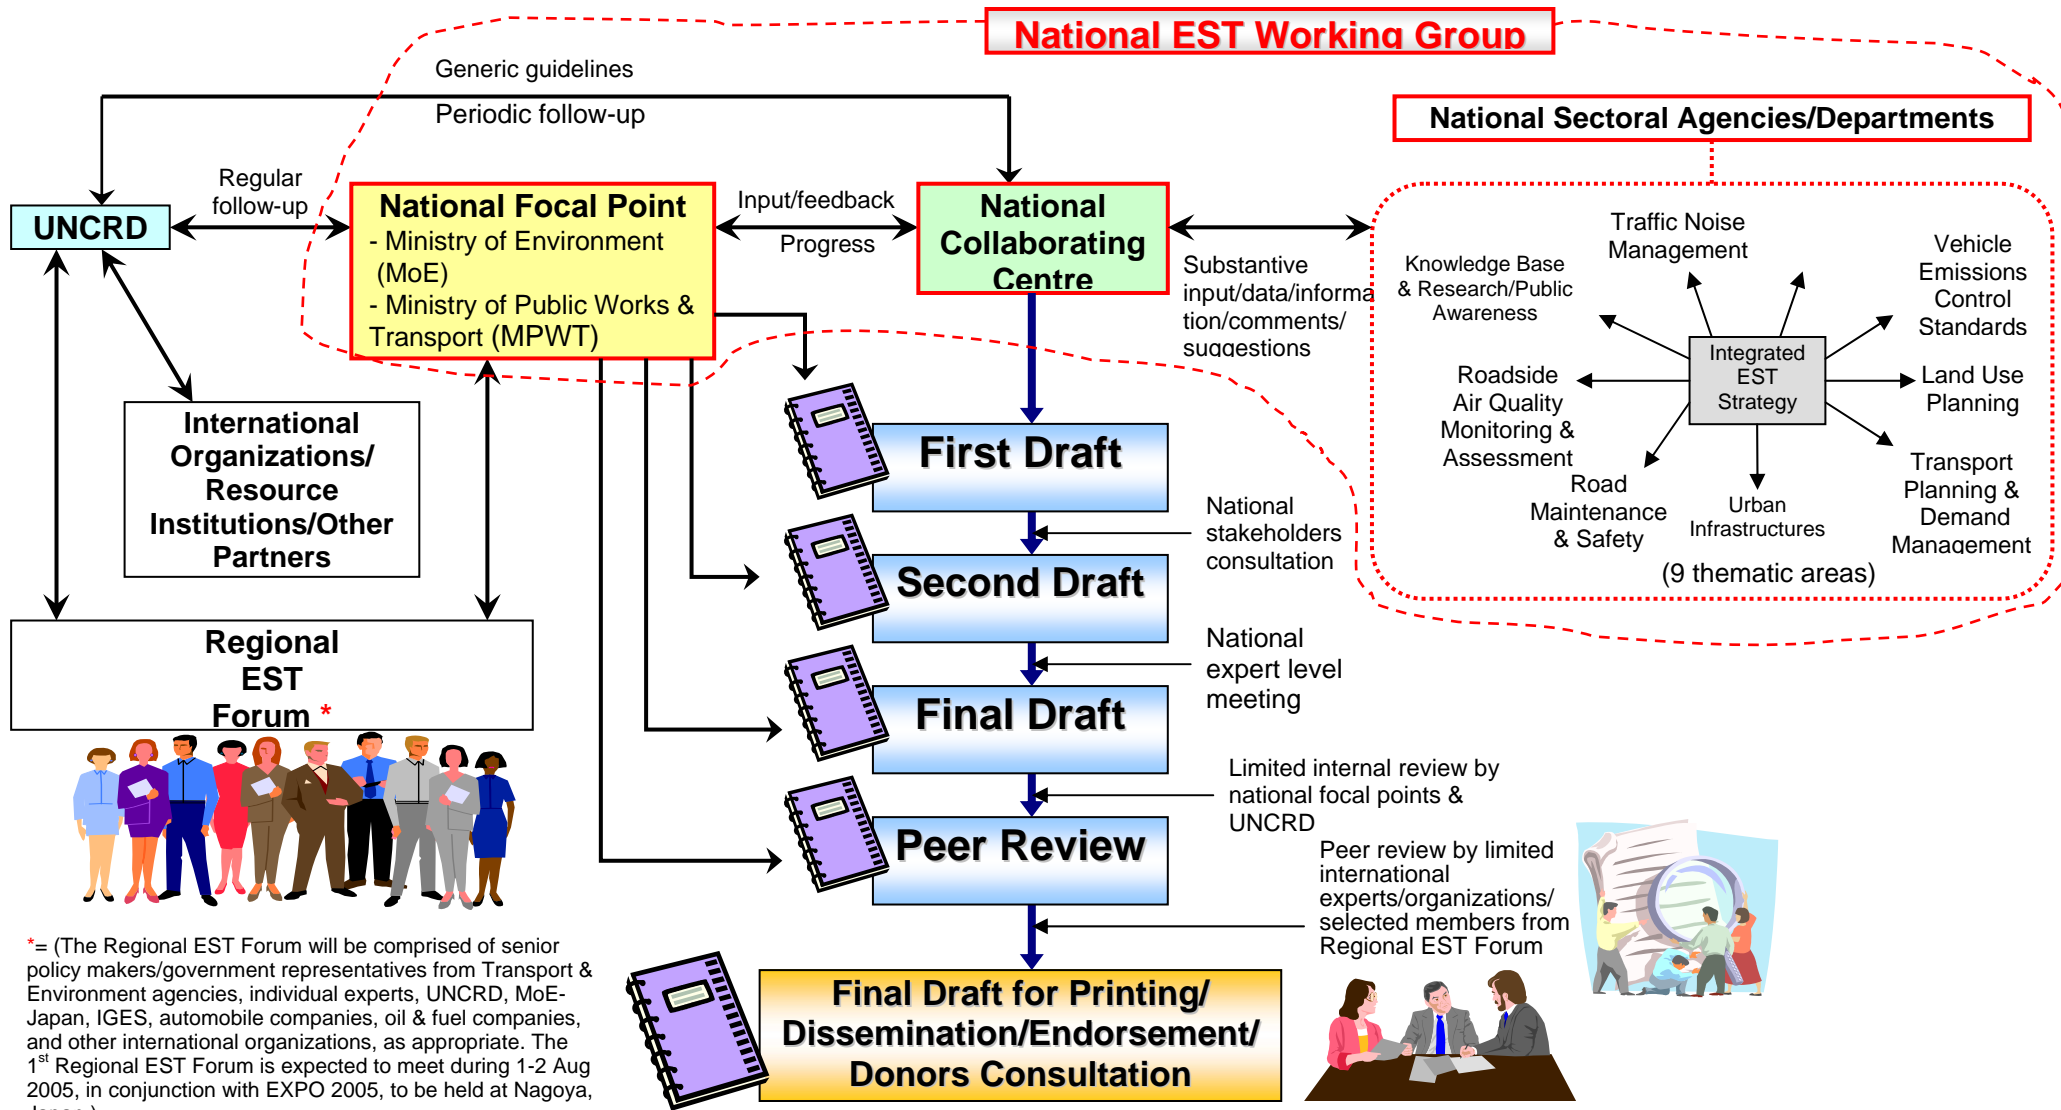

Total number of participants:

1st Day: 10~15 maximum (please see above)
2nd Day: 25~30 maximum (please see above)

6. Over all Institutional Arrangements for formulation of EST Strategy-cum-Action Plan

7. Institutional Co-operation/Mechanism vis-à-vis National EST-Working Group for Formulation of EST Strategy-cum-Action Plan

*= (The Regional EST Forum will be comprised of senior policy makers/government representatives from Transport & Environment agencies, individual experts, UNCRD, MoE-Japan, IGES, automobile companies, oil & fuel companies, and other international organizations, as appropriate. The 1st Regional EST Forum is expected to meet during 1-2 Aug 2005, in conjunction with EXPO 2005, to be held at Nagoya, Japan.)
