Country Report
(Draft)

<Timor Leste>

This country report was prepared by the Government of Timor Leste as an input for the Seventh Regional 3R Forum in Asia and the Pacific. The views expressed herein do not necessarily reflect the views of the United Nations.
Voluntary Progress/Achievements/Initiatives in Implementing Ha Noi 3R Declaration (2013~2023)  

Country Name  
TIMOR-LESTE  

Country 3R Progress Report  

Name of the Country: TIMOR-LESTE  
Name, Designation and Organization Respondent: Ministry for Commerce, Industry and the Environment  
Other Ministries, Organizations, Agencies contributing to Country Report: Ministry for State and Administration  
Timeline of Submission: 15 September 2016 (Email: 3R@uncrd.or.jp)  

Progress and achievements towards implementation of the Ha Noi 3R Declaration  
- Sustainable 3R Goals for Asia and the Pacific (2013-2023) -  

With the objective of demonstrating renewed interest and commitment of Asia-Pacific countries towards realizing a resource efficient society, the Fourth Regional 3R Forum in Asia-Pacific in 2013 adopted the good-will and legally non-binding “Ha Noi 3R Declaration – Sustainable 3R Goals for Asia and the Pacific 2013-23.” The objective of the Country Reporting is to share among international community various initiatives launched and efforts made (such as new policy instruments, legislations, regulations, institutional arrangements, investments or financing, technological innovation or intervention, partnership mechanisms, such as PPPs, etc.) by the member countries of the Forum in addressing each of the underlined goals of the Ha Noi 3R Declaration. This would not only help the member countries to learn various 3R best practices in place across the region, but it would also help bi-lateral and multi-lateral development agencies, donors, development banks in assessing the sustainable needs and challenges to better devise their existing as well as future capacity building programmes and technical assistance in the areas of 3Rs and sustainable waste management.

We request you to kindly fill in the below table as much as possible with relevant data/information. If additional spaces are required, separate sheets could be attached.

1) Daily waste production in the capital of city Dili is about 90-115 ton per day. Total country waste production have reach 175 ton per day.

<table>
<thead>
<tr>
<th>City/Town</th>
<th>Amount of in an organic waste production (in tons per day)</th>
<th>Amount of in organic waste production (in tons per day)</th>
</tr>
</thead>
<tbody>
<tr>
<td>Dili</td>
<td>40-55 ton per day</td>
<td>45-75 ton per day</td>
</tr>
<tr>
<td>Other town</td>
<td>30-35 ton per day</td>
<td>35-50 ton per day</td>
</tr>
</tbody>
</table>
Voluntary Progress/Achievements/Initiatives in Implementing Ha Noi 3R Declaration (2013~2023)  

Country Name: TIMOR-LESTE

2) Type of an organic waste

<table>
<thead>
<tr>
<th>Type of waste</th>

**Voluntary Progress/Achievements/Initiatives in Implementing Ha Noi 3R Declaration (2013~2023)**

| Country Name | TIMOR-LESTE |

<table>
<thead>
<tr>
<th>1. 3R Goals in Urban/Industrial Areas</th>
<th>(3Rs in municipal solid waste)</th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>Goal 1</strong></td>
<td>Significant <strong>reduction</strong> in the quantity of <em>municipal solid waste</em> generated, by instituting policies, programmes, and projects at national and local levels, encouraging both producers and consumers to reduce the waste through greening production, greening lifestyle, and sustainable consumption.</td>
</tr>
</tbody>
</table>

**Q-1 What specific 3R policies, programmes and projects, are implemented to reduce the quantity of municipal solid waste?**

**Q-2 What is the level of participation of households in “source” segregation of municipal waste streams?** (Please check the appropriate box)

- [ ] Very High (> 90%)
- [ ] High (>70%)
- [x] Average (50−70%)
- [ ] Low or not satisfactory (< 50%)
- [ ] Does not exist

**Q-3 Total annual government expenditure per capita (US$ per capita) in municipal solid waste management in 2014-2015**

**Challenges (policy/ institutional/ technological/ financial) faced in implementation:**
- Lack of expertise, technology, public participation/community awareness, finance support and coordination among institutions
- Lack of appropriate infrastructure and technology for big scale implementation

**Examples of pilot projects, master plans and/or policies developed or under development – include websites where relevant**

- Green school pilot project
- Community awareness and Environmental education to the public
- The initial use of biodegradable plastics bags
- The promotion of clean village from annual clean village award
- Declaration of every Friday Morning as clean up day

**Important policies/programmes/projects/master plans the government plans to undertake within next five years (2016~2021)**

Yes, through Ministry of Public works and Ministry of State Administration still plan to develop master plan.

**Is this Goal relevant for your country?**

- [ ] Highly
- [ ] Partially
- [ ] Not at all
### I. 3R Goals in Urban/Industrial Areas  
**Goal 2**  
Full-scale utilization of the organic component of municipal waste, including food waste, as a valuable resource, thereby achieving multiple benefits such as the reduction of waste flows to final disposal sites, reduction of GHG emission, improvement in resource efficiency, energy recovery, and employment creation.

**Q-1 Does the central government have policies or support to utilize or reduce the organic waste such as composting, energy recovery and improving efficiency in food processing?**

- The initial use of biodegradable plastics bags;
- The promotion of clean village from annual clean village award;
- Declaration of every Friday Morning as clean up day

**Q-2 What is happening to country’s organic waste?** (Please check the appropriate box)
- ☐ mostly landfilled
- ☐ mostly incinerated
- ☐ both landfilled and incinerated
- ☐ mostly open dumped or open burned

**Challenges (policy/ institutional/ technological/ financial) faced in implementation:**
- Lack of appropriate infrastructure and technology for big scale implementation

**Examples of pilot projects, master plans and/or policies developed or under development – include websites where relevant**

1. The use of biodegradable plastics bags;
2. The application policy for of second hand vehicles importation no more than 5 years production;

**Important policies/programmes/projects/master plans the government plans to undertake within next five years (2016~2021)**

1) Promotion of private sector involvement for re-exportation of residual oil to country origin for recycling;
2) Design of center waste processing center in order to reduce methane and other emission gas from landfill

| Is this Goal relevant for your country? | ☐ Highly | ☐ Partially | ☐ Not at all |
Voluntary Progress/Achievements/Initiatives in Implementing Ha Noi 3R Declaration (2013~2023)  

Country Name  
TIMOR-LESTE

### I. 3R Goals in Urban/Industrial Areas  
(3Rs in municipal solid waste)

#### Goal 3
Achieve significant **increase in recycling rate** of recyclables (e.g., plastic, paper, metal, etc.), by introducing policies and measures, and by setting up financial mechanisms and institutional frameworks involving relevant stakeholders (e.g., producers, consumers, recycling industry, users of recycled materials, etc.) and development of modern recycling industry.

**Q-1 What is the recycling rate of various recyclables?**  
(Please check the appropriate cell & add more waste streams as relevant for the country)

<table>
<thead>
<tr>
<th>Type</th>
<th>Rate</th>
<th>Very High (&gt;90%)</th>
<th>High (&gt;70%)</th>
<th>Average (50~60%)</th>
<th>Poor (&lt;50%)</th>
<th>Recycling does not exist</th>
<th>Definition of recycling rate*</th>
</tr>
</thead>
<tbody>
<tr>
<td>Paper</td>
<td></td>
<td></td>
<td></td>
<td></td>
<td></td>
<td></td>
<td></td>

<tr>
<td>others</td>
<td></td>
<td></td>
<td></td>
<td></td>
<td></td>
<td></td>
<td></td>
</tr>
</tbody>
</table>

*Note: Please specify in the cell which of the following definitions (ie., 1 or 2 or 3) is followed for recycling rate
Definition 1: \( \frac{\text{collected recyclable waste}}{\text{estimated generation of waste}} \)
Definition 2: \( \frac{\text{volume of utilized recyclable waste}}{\text{volume of raw material}} \)
Definition 3: \( \frac{\text{volume of utilized recyclable waste}}{\text{volume of collected waste for recycling}} \)

**Q-2 What specific policies are introduced at local and national level for prevention or reduction of waste streams – paper, plastic, metal, construction waste, e-waste?**

3. **The use of biodegradable plastics bags**;
4. **The application policy for of second hand vehicles importation no more than 5 years production**;

**Q-3 What is the rate of resource recovery from various waste streams?**

<table>
<thead>
<tr>
<th>Type</th>
<th>Rate</th>
<th>Very High (&gt;90%)</th>
<th>High (&gt;70%)</th>
<th>Average (50~60%)</th>

<td>Country Name</td>
</tr>
<tr>
<td>--------------------------------------</td>
<td>--------------</td>
</tr>
<tr>
<td><strong>Goal 4</strong></td>
<td>TIMOR-LESTE</td>
</tr>
<tr>
<td>Build sustainable cities /green cities by encouraging “zero waste” through sound policies, strategies, institutional mechanisms, and multi-stakeholder partnerships (giving specific importance to private sector involvement) with a primary goal of waste minimization</td>
<td></td>
</tr>
</tbody>
</table>

**Q-1** What specific waste management policies and programmes are introduced to encourage private sector participation in municipal waste management?

**Q-2** What are the major waste management areas that have strong involvement of private and business sector? (Please check appropriate boxes and add other areas if not listed below)

- ☐ waste collection
- ☐ resource recovery
- ☐ waste recycling
- ☐ waste to energy, composting, etc.
- ☐ PPP projects in waste sector

**Challenges (policy/ institutional/ technological/ financial) faced in implementation:**

Building culture of clean village and clean city

**Examples of pilot projects, master plans and/or policies developed or under development – include websites where relevant**

1. Clean municipality competition
2. More promotion of biodegradable plastic bag
3. Promotion of organic and local material for carrying bags

**Important policies/programmes/projects/master plans the government plans to undertake within next five years (2016~2021)**

Clean municipality competition

**Is this Goal relevant for your country?**

☐ Highly  ☐ Partially  ☐ Not at all
### 1. 3R Goals in Urban/Industrial Areas  (3Rs in Industrial waste)

| Goal 5 | Encourage the **private sector**, including small-and medium-sized enterprises (SMEs) to implement measures to increase **resource efficiency and productivity**, creation of decent work and to improve environmentally-friendly practices through applying environmental standards, clean technologies, and cleaner production. |

**Q-1 What are the major clean technology related policies aiming to increase energy and resource efficiency of SMEs?**

**Q-2 What are the capacity building programmes currently in place to build the technical capacity of SMEs in 3R areas?**

**Challenges (policy/ institutional/ technological/ financial) faced in implementation:**
- Lack of technology and human resources in relative area and lack of capital

**Examples of pilot projects, master plans and/or policies developed or under development – include websites where relevant**
1. Pre-precycling of plastics in cooperation with private sector
2. MoU for 30 years cooperation with foreign investment(Shin Hsin comp) for transforming urban waste as gas (energy) but until now not yet establish.

**Important policies/programmes/projects/master plans the government plans to undertake within next five years (2016~2021)**

**Is this Goal relevant for your country?**  □ Highly  □ Partially  □ Not at all
### I. 3R Goals in Urban/Industrial Areas  (3Rs in Industrial waste)

**Goal 6**  Promote the **greening of the value chain** by encouraging industries and associated suppliers and vendors in socially responsible and inclusive ways.

#### Q-1 What percent of companies and industries have introduced green accounting and voluntary environmental performance evaluation (Ref: ISO 14000)?

- [ ] Very High (> 90%)
- [ ] High (>70%)
- [ ] Average (50~70%)
- [ ] Low or not satisfactory (< 50%)
- [ ] None

#### Q-2 What percent of companies and industries have introduced social accounting (Ref: SA 8000) in consultation with their workers?

- [ ] Very High (> 90%)
- [ ] High (>70%)
- [ ] Average (50~70%)
- [ ] Low or not satisfactory (< 50%)
- [ ] None

#### Q 3 Does government have a programme for promoting greening of the value chain? What specific policies, programmes and incentives are introduced to promote greening of value chain?

**Challenges (policy/ institutional/ technological/ financial) faced in implementation:**

- Lack of technology and human resources in relative area and lack of capital

**Examples of pilot projects, master plans and/or policies developed or under development – include websites where relevant**

1. The use of biodegradable plastic bags
2. Production of bio-briquettes from organic waste as energy for cooking

**Important policies/programmes/projects/master plans the government plans to undertake within next five years (2016~2021)**

**Is this Goal relevant for your country?**  
- [ ] Highly  
- [ ] Partially  
- [ ] Not at all
I. 3R Goals in Urban/Industrial Areas (3Rs in Industrial waste)

<table>
<thead>
<tr>
<th>Goal 7</th>
<th>Promote industrial symbiosis (i.e., recycling of waste from one industry as a resource for another), by providing relevant incentives and support.</th>
</tr>
</thead>
</table>

**Q-1 Does your government have policies and programmes promoting industrial symbiosis in industrial parks or zones? What specific policies, programmes and incentives are introduced to promote industrial symbiosis?**

**Q-2 How many eco-industrial parks or zones or the like, which is supported by the government, are there in the country?**

**Challenges (policy/ institutional/ technological/ financial) faced in implementation:**
- Lack of technology and capital

**Examples of pilot projects, master plans and/or policies developed or under development – include websites where relevant**

**Important policies/programmes/projects/master plans the government plans to undertake within next five years (2016~2021)**

**Is this Goal relevant for your country?**  [ ] Highly  [ ] Partially  [ ] Not at all
<table>
<thead>
<tr>
<th>I. 3R Goals in Urban/Industrial Areas</th>
<th>(3Rs in Industrial waste)</th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>Goal 8</strong></td>
<td>Build <strong>local capacity</strong> of both current and future practitioners, to enable the private sector (including SMEs) to obtain the necessary knowledge and technical skills to foster green industry and create decent, productive work.</td>
</tr>
</tbody>
</table>

**Q-1** How many dedicated training facilities or centers are there to cater the needs of SMEs and practitioners in the areas of cleaner production, resource efficiency and environment-friendly technologies, etc.?

**Q-2** Please provide an indicative figure on annual government (US $) expenditure on building technical capacity of SMEs and practitioners in the areas of cleaner production, resource efficiency and environment-friendly technologies, etc.?

**Challenges (policy/institutional/technological/financial) faced in implementation:**

**Examples of pilot projects, master plans and/or policies developed or under development – include websites where relevant**

**Important policies/programmes/projects/master plans the government plans to undertake within next five years (2016~2021)**

<table>
<thead>
<tr>
<th>I. 3R Goals in Urban/Industrial Areas</th>
<th>(3Rs in Industrial waste)</th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>Goal 9</strong></td>
<td>Develop proper <strong>classification and inventory of hazardous waste</strong> as a prerequisite towards sound management of such waste.</td>
</tr>
</tbody>
</table>

**Q-1 Is there a systematic classification of hazardous waste? If so, please attach.**
- ☐ Yes
- ☐ No

**Q-2 What specific rules and regulations are introduced to separate, store, treat, transportation and disposal of hazardous waste?**

**Challenges (policy/ institutional/ technological/ financial) faced in implementation:**
- Human resources for data base and updating information

**Examples of pilot projects, master plans and/or policies developed or under development – include websites where relevant**
- Training of staff in data base management

**Important policies/programmes/projects/master plans the government plans to undertake within next five years (2016~2021)**

**Is this Goal relevant for your country?**
- ☐ Highly
- ☐ Partially
- ☐ Not at all
II. 3R Goals in Rural Areas

<table>
<thead>
<tr>
<th>Goal 10</th>
<th>Reduce losses in the overall food supply chain (production, post harvesting and storage, processing and packaging, distribution), leading to reduction of waste while increasing the quantity and improving the quality of products reaching consumers.</th>
</tr>
</thead>
<tbody>
<tr>
<td>Q-1 What specific policies, rules and regulations, including awareness programmes, are introduced to minimize food or crop waste?</td>
<td></td>
</tr>
<tr>
<td>Q-2 Is there any continuing education services or awareness programmes for the farmers or agricultural marketing associations on reduction of crop wastes for increased food security?</td>
<td></td>
</tr>
<tr>
<td>Q-3 What is the average wastage of crops or agricultural produce between farms to consumers, if there is a study in your country?</td>
<td></td>
</tr>
<tr>
<td>☐ Very High (&gt; 20~ 30%)</td>
<td>☐ High (10~20%)</td>
</tr>
<tr>
<td>☐ Medium (5~10%)</td>
<td>☐ Low (&lt; 5%)</td>
</tr>
<tr>
<td>☐ Negligible (&lt;1%)</td>
<td></td>
</tr>
</tbody>
</table>

**Challenges (policy/ institutional/ technological/ financial) faced in implementation:**

- Human resources for data base and updating information

- Examples of pilot projects, master plans and/or policies developed or under development – include websites where relevant

  - Training of staff in data base management

- Important policies/programmes/projects/master plans the government plans to undertake within next five years (2016~2021)

**Is this Goal relevant for your country?**

- ☐ Highly
- ☐ Partially
- ☐ Not at all
### II. 3R Goals in Rural Areas

**Goal 11** Promote full scale use of agricultural biomass waste and livestock waste through reuse and/or recycle measures as appropriate, to achieve a number of co-benefits including GHG emission reduction, energy security, sustainable livelihoods in rural areas and poverty reduction, among others.

**Q-1 How much amount of – (a) agricultural biomass waste and (b) livestock waste are grossly generated per annum?**

**Q-2 How are most of the agricultural biomass wastes utilized or treated?** (Please check all appropriate boxes)

- [ ] as secondary raw material input (for paper, bio plastic, furniture, etc.)
- [ ] biogas/electricity generation
- [ ] composts/fertilizers
- [ ] mostly left unutilized or open dumped
- [ ] mostly open burned

**Q-3 What specific policies, guidelines, and technologies are introduced for efficient utilization of agricultural biomass waste and livestock waste as a secondary material inputs towards full scale economic benefits? Relevant websites could be shared for additional information.**

**Challenges (policy/ institutional/ technological/ financial) faced in implementation:**

- Organic waste is quite expensive and need in big quantity

**Examples of pilot projects, master plans and/or policies developed or under development – include websites where relevant**

- Pilot project promotion for composting of organic waste in rural and urban area

**Important policies/programmes/projects/master plans the government plans to undertake within next five years (2016~2021)**

**Is this Goal relevant for your country?**

- [ ] Highly
- [ ] Partially
- [ ] Not at all
### III. 3R Goals for New and Emerging Wastes

| Goal 12 | Strengthen regional, national, and local efforts to address the issue of waste, in particular plastics in the marine and coastal environment. |

**Q-1** What specific policies and regulations are in place to address the issue of plastic wastes in coastal and marine environment?

**Q-2** What extent issue of plastic waste is considered in integrated coastal zone management (ICZM)? (Please check the appropriate box)

- [ ] Very much
- [ ] Somehow
- [ ] Not at all

**Q-3** Please provide a list of centre of excellences or dedicated scientific and research programmes established to address the impacts of micro-plastic particules (<5 mm) on coastal and marine species? If yes, please provide relevant websites.

**Challenges (policy/institutional/technological/financial) faced in implementation:**

- Lack of capital and technology

**Examples of pilot projects, master plans and/or policies developed or under development – include websites where relevant**

1. Initial plastic recycling and re-exportation of plastics pellets
2. Promote biodegradable plastic bags and local biodegradable bags production

**Important policies/programmes/projects/master plans the government plans to undertake within next five years (2016~2021)**

**Is this Goal relevant for your country?**

- [ ] Highly
- [ ] Partially
- [ ] Not at all
III. 3R Goals for New and Emerging Wastes

**Goal 13** Ensure *environmentally-sound management of e-waste* at all stages, including collection, storage, transportation, recovery, recycling, treatment, and disposal with appropriate consideration for working conditions, including *health and safety aspects* of those involved.

**Q-1 How do people usually recycle their e-waste (waste electrical and electronic equipment)?**
(Please check the appropriate box in order of priority by filling in numbers like 1, 2, 3, 4,…etc., for example 1 => Highest priority)

<table>
<thead>
<tr>
<th>Check if applicable</th>
<th>Number in priority order</th>
</tr>
</thead>
<tbody>
<tr>
<td>Take to recycling center / resource recovery facilities</td>
<td></td>
</tr>
<tr>
<td>Take to landfill</td>
<td></td>
</tr>
<tr>
<td>Take to the retailer</td>
<td></td>
</tr>
<tr>
<td>Take to local charity for re-use</td>
<td></td>
</tr>
<tr>
<td>Take to second-hand shop for re-use</td>
<td></td>
</tr>
<tr>
<td>Ship back to the manufacturer</td>
<td></td>
</tr>
<tr>
<td>Ship back to the manufacturer</td>
<td></td>
</tr>
<tr>
<td>Recycle in another country</td>
<td></td>
</tr>
<tr>
<td>Do not know how people dispose</td>
<td></td>
</tr>
</tbody>
</table>

**Q-2 What specific policies and regulations are in place to ensure health and safety aspects of those involved in e-waste management (handling/sorting/resource recovery/recycling)?**

**Q-3 How much amount of e-waste is generated and recycled per year?**

<table>
<thead>
<tr>
<th>Type of e-waste</th>
<th>Estimated total volume generated (ton/year)</th>
<th>% of collected by permitted recycler</th>
<th>% of volume recycled in collected</th>
</tr>

</tr>
</tbody>
</table>

**Challenges (policy/ institutional/ technological/ financial) faced in implementation:**

- Lack of knowledge about the dangerous of e-waste

**Examples of pilot projects, master plans and/or policies developed or under development – include websites where relevant**

- Develop education material on e-waste education

**Important policies/programmes/projects/master plans the government plans to undertake within next five years (2016~2021)**

**Is this Goal relevant for your country?**
- [ ] Highly
- [ ] Partially
- [ ] Not at all
### III. 3R Goals for New and Emerging Wastes

<table>
<thead>
<tr>
<th>Goal 14</th>
<th>Effective enforcement of established mechanisms for preventing illegal and inappropriate export and import of waste, including transit trade, especially of hazardous waste and e-waste.</th>
</tr>
</thead>
</table>

#### Q-1 What specific policies and regulations are introduced to prevent illegal import and export of e-waste?

#### Q-2 Do you have required number of well-trained custom or other officials (for airport, sea-port, land border control, etc.) to track illegal export and import of e-waste?

- ☐ Yes
- ☐ No

**Challenges (policy/ institutional/ technological/ financial) faced in implementation:**

- Consistency in implementing role and regulation

**Examples of pilot projects, master plans and/or policies developed or under development – include websites where relevant**

- Sitting on Joint Committee for evaluate second hand vehicles importation

**Important policies/programmes/projects/master plans the government plans to undertake within next five years (2016~2021)**

**Is this Goal relevant for your country?**

- ☐ Highly
- ☐ Partially
- ☐ Not at all
### III. 3R Goals for New and Emerging Wastes

<table>
<thead>
<tr>
<th>Goal 15</th>
<th>Progressive implementation of “extended producer responsibility (EPR)” by encouraging producers, importers, and retailers and other relevant stakeholders to fulfill their responsibilities for collecting, recycling, and disposal of new and emerging waste streams, in particular e-waste.</th>
</tr>
</thead>
</table>

**Q-1 What specific Extended Product Responsibility (EPR) policies are enacted or introduced?**
*(If there is none, then skip Q-2 below)*

**Q-2 Please provide a list of products and product groups targeted by EPR nationally?**

### Challenges (policy/ institutional/ technological/ financial) faced in implementation:

Examples of pilot projects, master plans and/or policies developed or under development – include websites where relevant

Socialization of basic environmental law (No26/2012), environmental license (No5/2011), regulation on Ozon Depletion Substance/ODS(36/2012)

Important policies/programmes/projects/master plans the government plans to undertake within next five years (2016~2021)

### Is this Goal relevant for your country?

- [ ] Highly
- [x] Partially
- [ ] Not at all
### III. 3R Goals for New and Emerging Wastes

**Goal 16** Promote the 3R concept in health-care waste management.

**Q-1 What specific policies and regulations are in place for healthcare waste management?**

**Q-2 What is the total annual government expenditure towards healthcare waste management (US$ per year)?**

**Q-3 List the agencies or authorities responsible for healthcare waste management.**

**Q-4 What is the common practice for disposal of healthcare wastes?**

(Please check the appropriate box and add if any other practice followed)

- [ ] open dumping (untreated)
- [ ] open burning (untreated)
- [ ] ordinary landfilling (untreated)
- [ ] sanitary landfilling (treated)
- [ ] Low cost small scale incineration (do not meet air emission standards)
- [ ] Highly controlled air incineration (dedicated/modern medical waste incinerators)
- [ ] Other methods (please specify names:   )

**Challenges (policy/institutional/technological/financial) faced in implementation:**

- Lack of technology
- Discipline in evaluation and monitoring

**Examples of pilot projects, master plans and/or policies developed or under development – include websites where relevant**

- Simple incineration of medicine waste

**Important policies/programmes/projects/master plans the government plans to undertake within next five years (2016~2021)**

**Is this Goal relevant for your country?**

<thead>
<tr>
<th>IV. 3R Goals for Cross-cutting Issues</th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>Goal 18</strong> Maximize co-benefits from waste management technologies for local air, water, oceans, and soil pollution and global climate change.</td>
</tr>
</tbody>
</table>

**Q-1 Please share how climate mitigation is addressed in waste management policies and programmes for co-benefits?**

**Challenges (policy/ institutional/ technological/ financial) faced in implementation:**
- Lack of technology and capital

**Examples of pilot projects, master plans and/or policies developed or under development – include websites where relevant**
- Explore possibility for cooperation with regional or international interest group in this relative area

**Important policies/programmes/projects/master plans the government plans to undertake within next five years (2016~2021)**

**Is this Goal relevant for your country?**
- [ ] Highly
- [ ] Partially
- [ ] Not at all
IV. 3R Goals for Cross-cutting Issues

| Goal 19 | Enhance national and local knowledge base and research network on the 3Rs and resource efficiency, through facilitating effective and dynamic linkages among all stakeholders, including governments, municipalities, the private sector, and scientific communities. |

**Q-1** What specific policies are introduced to encourage triangular cooperation between government, scientific & research institutions and private/business sector in 3R areas?

**Q-2** Please share the number and list of dedicated scientific institution, or coordinating centers in the areas of 3Rs (e.g., waste minimization technologies, eco-products, cleaner production, recycling technologies, industrial symbiosis, resource efficiency, etc.)?

**Challenges (policy/institutional/technological/financial) faced in implementation:**
- Less interest from academic sector in promote research and data

**Examples of pilot projects, master plans and/or policies developed or under development – include websites where relevant**
- Develop joint research with private sector or NGO to assess and updating waste problem, issues and existing capability for management

**Important policies/programmes/projects/master plans the government plans to undertake within next five years (2016~2021)**

**Is this Goal relevant for your country?**
- ☐ Highly
- ☐ Partially
- ☐ Not at all
### IV. 3R Goals for Cross-cutting Issues

<table>
<thead>
<tr>
<th><strong>Goal 20</strong></th>
<th>Strengthen multi-stakeholder partnerships among governments, civil society, and the private sector in raising public awareness and advancing the 3Rs, sustainable consumption and production, and resource efficiency, leading to the behavioural change of the citizens and change in production patterns.</th>
</tr>
</thead>
</table>

**Q-1 Does central government have official dialogue with multi-stakeholders in the process to formulate 3R-related policies and regulations? Which stakeholders are involved in the dialogue?** *(Please check all applicable)*

- [ ] NGOs
- [ ] Industrial Association
- [ ] Local Government
- [ ] Academic Institution
- [ ] Others, please add/specify (  )

**Q-2 What is the level of NGOs’ involvement in 3R, sustainable production and consumption, resource efficiency related promotional activities?** *(Please check the appropriate box)*

- [ ] Very high
- [ ] Moderate
- [ ] Low
- [ ] Almost Negligible

**Q-3 What is the level of citizens’ awareness on beneficial aspects of 3R, sustainable production and consumption and resource efficiency.** *(Please check the appropriate box)*

- [ ] Very high
- [ ] Moderate
- [ ] Low
- [ ] Almost Negligible

**Challenges (policy/ institutional/ technological/ financial) faced in implementation:**
- Lack of financial for long term environmental education program
- Too many issue need to be tackle

**Examples of pilot projects, master plans and/or policies developed or under development – include websites where relevant**
- MoU with Haburas Foundation on training program

**Important policies/programmes/projects/master plans the government plans to undertake within next five years (2016~2021)**

**Is this Goal relevant for your country?**

- [ ] Highly
- [ ] Partially
- [ ] Not at all
Voluntary Progress/Achievements/Initiatives in Implementing Ha Noi 3R Declaration (2013~2023)

IV. 3R Goals for Cross-cutting Issues

<table>
<thead>
<tr>
<th>Goal 21</th>
<th><strong>Integrate the 3Rs</strong> in formal education at primary, secondary, and tertiary levels as well as non-formal education such as community learning and development, in accordance with Education for Sustainable Development.</th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>Q-1</strong> Provide a list of formal programmes that addresses areas of 3R and resource efficiency as part of the academic curriculum?</td>
<td></td>
</tr>
<tr>
<td><strong>Q-2</strong> Please provide an overview of the Government policies and programmes to promote community learning and development (non-formal education) on 3R and sustainable waste management.</td>
<td></td>
</tr>
<tr>
<td><strong>Q-3</strong> Please provide a list of academic and research institutions offering PhD programmes in the areas of 3Rs and resource efficiency?</td>
<td></td>
</tr>
<tr>
<td><strong>Q-4</strong> Please provide a list of management institutions (offering BBA / MBA courses) which have integrated resource efficiency and life cycle assessment (LCA) as part of their curriculum or course development?</td>
<td></td>
</tr>
</tbody>
</table>

**Challenges (policy/ institutional/ technological/ financial) faced in implementation:**

- Lack of information and simple pedagogical material for teachers on waste relative issues

**Examples of pilot projects, master plans and/or policies developed or under development – include websites where relevant**

- Active in improving education curriculum

**Important policies/programmes/projects/master plans the government plans to undertake within next five years (2016~2021)**
