

TILLVÄXT VERKET

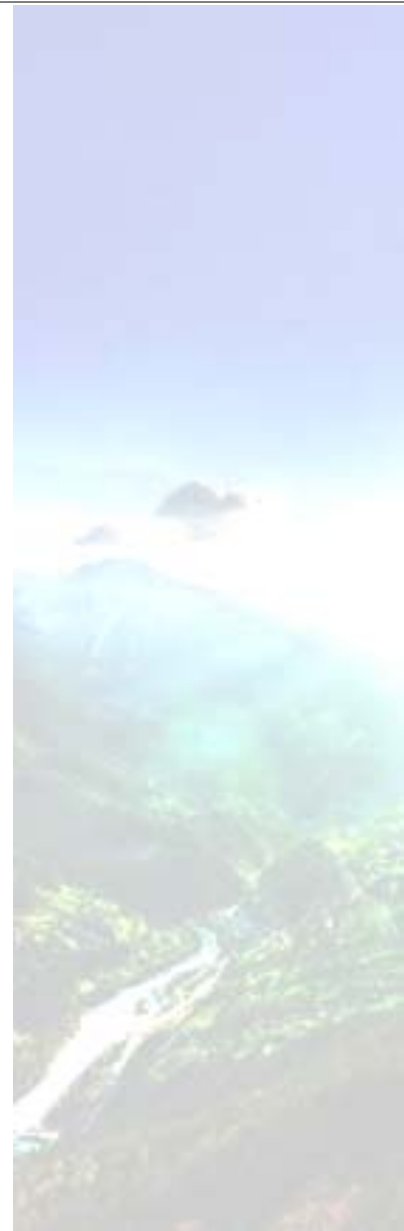

SUSTAINABLE
SWEDISH AGENCY FOR ~~ECONOMIC~~ AND REGIONAL GROWTH

BACKGROUND

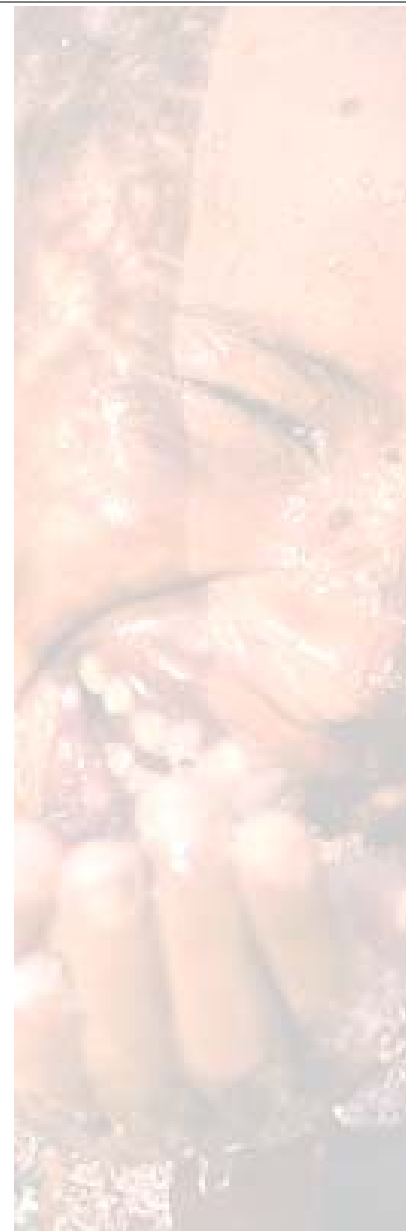

- Assignment from Sida
- Funded by development aid
- Reduce poverty
- Sustainable development

PROJECTS

DEMOENV1

- 2007-2012 with projects in 45 countries
- 88 applications approved of 292
- 35 applications approved of 47 Demo-projects
- 36 applications approved of 41 Pre-studies
- 90% Urban 10% rural
- 33% Renewable energy
- Support: Pre-study 300 000 SEK
Demo-project 3 000 000 SEK

PROJECTS

DEMOENV 2

- 2012-2013 in 7 countries
- 64 applications approved of 90
- 9 applications approved of 10 Demo-projects
- 55 applications approved of 80 Planing-grants
- The program is on going until 31/12-2013
- Support: Planing grant 284 000 SEK
Demo-project 1 800 000 SEK

PROGRAMME GOALS DEMOENV 2

Programme	Indicators
The new technology is spread in the partner countries	Strategy for spreading examples in each demo-project
Users in the partner countries will be able to develop knowledge of new environmental technologies	Adaptation of the technology to the local environment and local areas of application
Encourage the development of self-supporting relationships between Swedish suppliers of innovative environmental technologies and stakeholders in partner countries that contribute to improving the living conditions of vulnerable groups in society	50% of planning grants leading to self-supporting relationships between Swedish actors and stakeholders in the partner countries created Increased Swedish exports of environmental technologies to the partner countries, which contributes to increased growth and employment

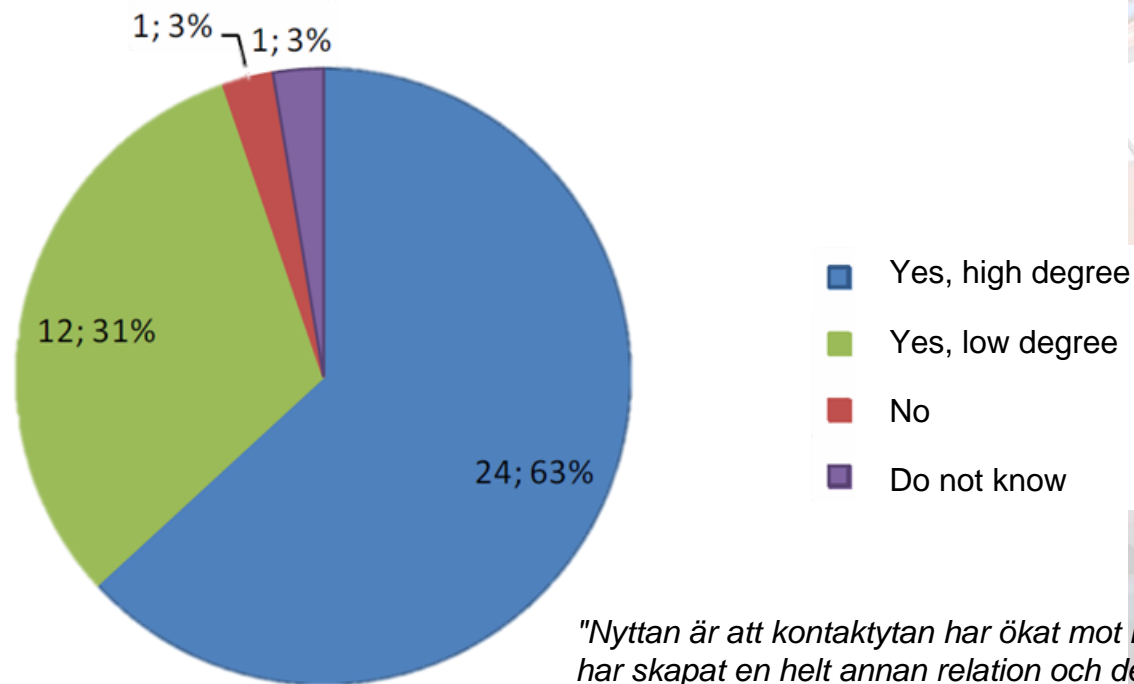

FUNDING DEMOENV2

Country	Total budget 2012-2013	Total approved 2012-2013	Distributed 2012/07-2013/06	Distributed (%)
Botswana	3 582 000	3 219 316	1 098 850	34
India	7 454 175	6 364 715	482 000	8
Indonesia	4 900 000	3 136 540	410 588	13
China	7 400 000	5 575 000	2 514 244	45
Namibia	3 152 000	2 439 390	404 400	17
South Africa	9 214 175	1 597 414	641 942	40
Vietnam	4 535 000	3 741 080	1 327 097	35
Total	40 237 350	26 073 452	6 879 121	26

RESULTS (DemoEnv 1)

- Does the programme respond to the needs of business?

"Nytan är att kontaktytan har ökat mot lokalkonsulter. Man har skapat en helt annan relation och det är mycket kortare handlingstider."

RESULTS (DemoEnv 1)

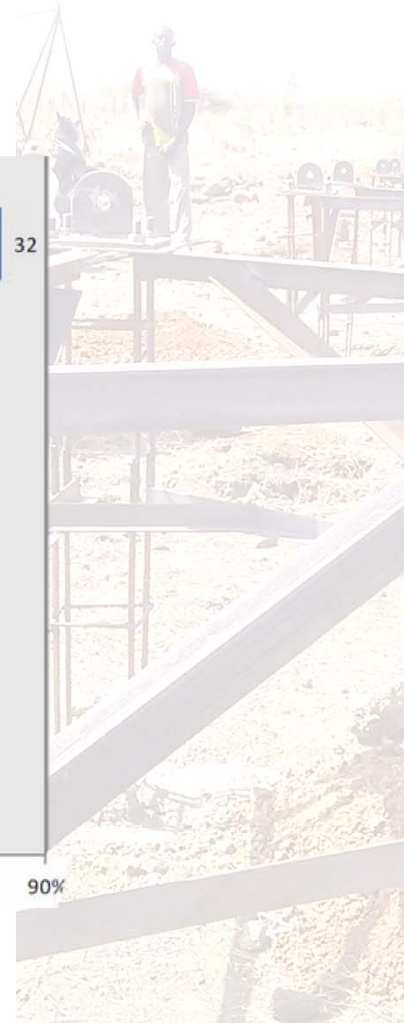

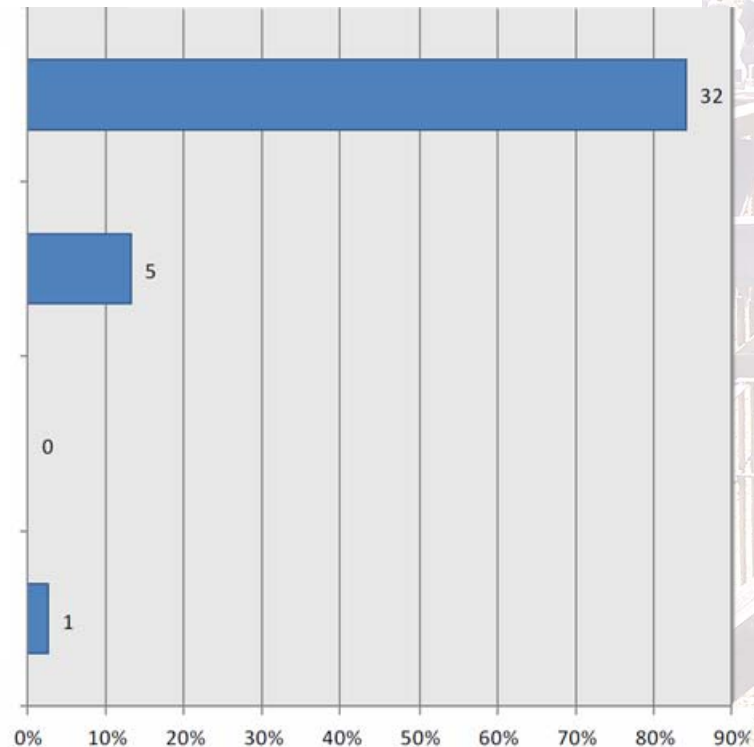

- The program's additionality for business?

We would not have
done it

We would have done it
but in smaller scale

We would have done it

Do not know

RESULTS (DemoEnv 1)

- Has DemoEnv contributed to increased growth?

	Increased employment	Increased turnover
Yes, high degree	3%	3%
Yes, low degree	24%	39%
No	74%	55%
Do not know	0%	3%

"[Resultaten ser vi] inte ännu men vi förväntar oss att jobba med båda partners igen och att de köper från oss i framtiden. Men ännu är båda projekten i gång så det är för tidigt att säga någonting."

DEMOENV 3

- SIDA has presented the needs to Eastern Europe and the Western Balkans
- Key institutions have the capacity to manage environmental and climate issues: sewage, waste, emissions, energy, social responsibility
- Increased coordination, service and efficiency in the public sector

GOOD EXAMPELS

LESSONS LEARNED

- Knowledge distribution and promotion in partner countries
- Formative phase
- Strengthen the distribution of environmental technology companies to support and prepare the way for the companies that received funds
- Further follow-up should be carried out when all actions are completed

THANK YOU FOR YOUR ATTENTION

THE END
