

International cooperation in promoting transfer of 3R technologies

Sofia Garcia-Cortes

Sofia.Garcia-Cortes@giz.de

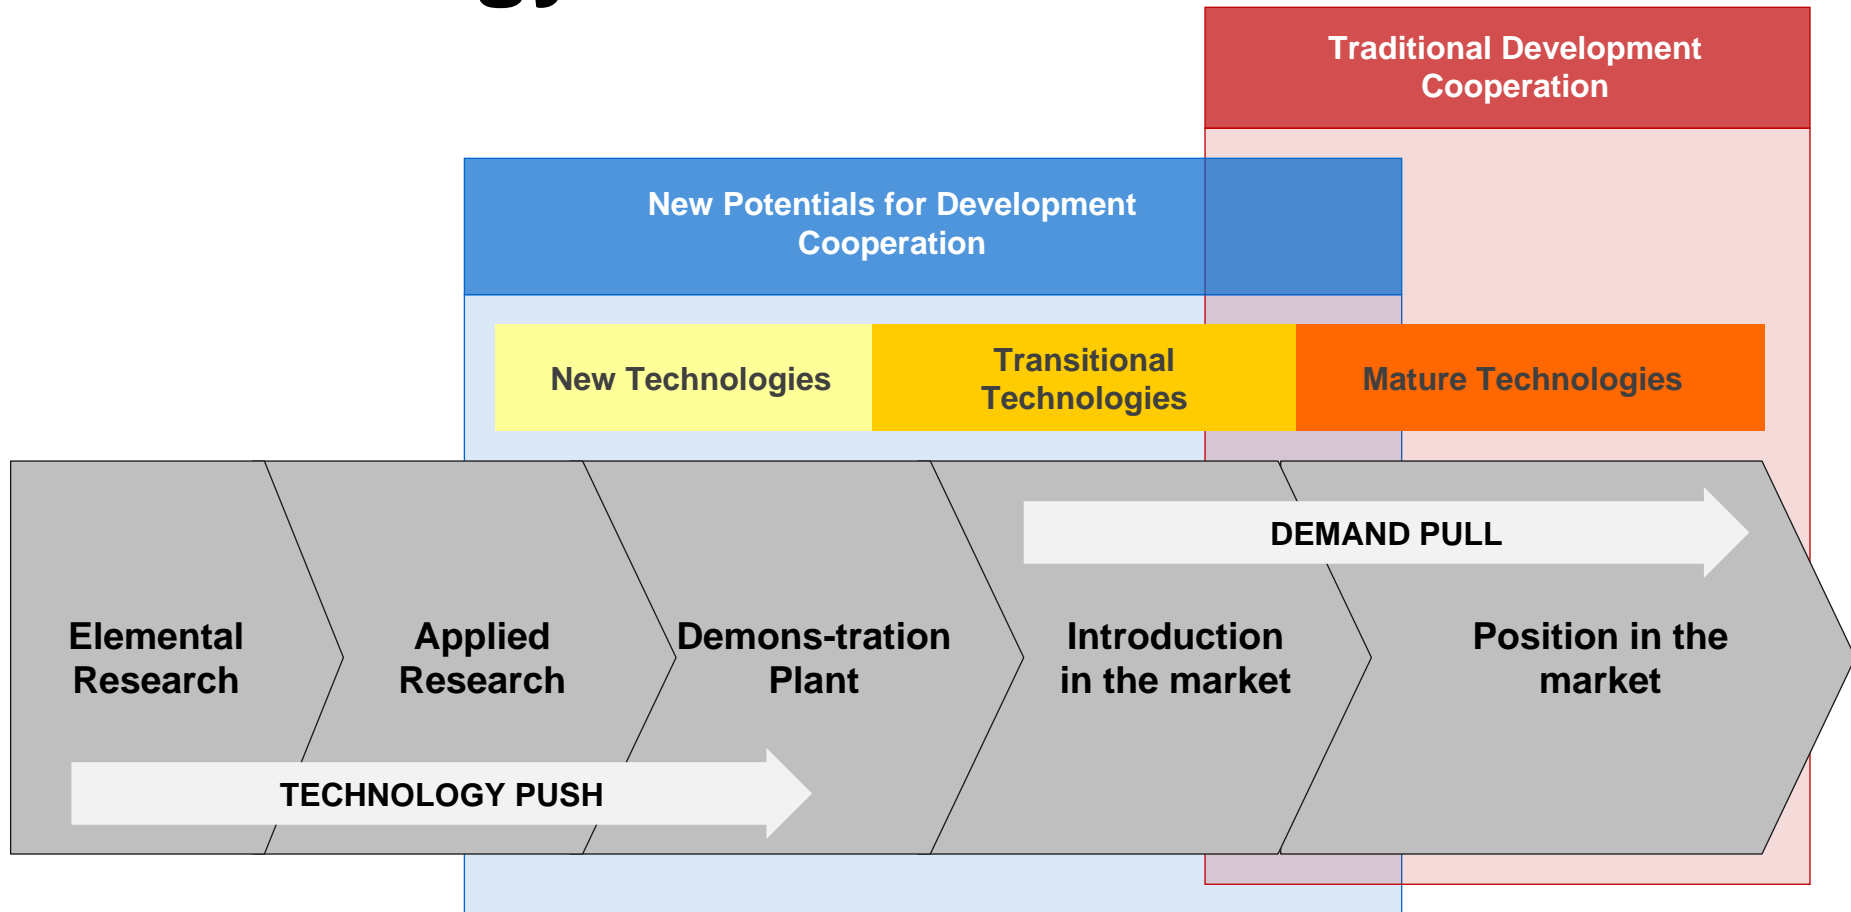

About us

- GIZ works on behalf of the German Government and other public, private, national and international clients
- Demand-driven, tailor-made and effective services for sustainable development
- Support at international, national, regional and local level in designing strategies and meeting policy goals
- Coordination and joint implementation of projects with the partner

International Cooperation & Technology Transfer

Challenges

- Improve what exists
- Adaptation of technologies
- Framework conditions
- Market
- Financial capacity
- Political will
- Example: E-Waste in India
 - Informal and formal sectors
 - Capacity building
 - Adapted technologies

Partnerships with the private sector

- Private sector: formal AND informal
- Ownership (international organizations are only facilitators)
- Credit schemes between 5 and 50 thousand US dollars
- Clear benefits, clear responsibilities
- Feasibility study and benchmarking
- Example: Plastic bags in the Philippines
 - Strengthened informal sector and cement industry
 - Capacity building
 - Adapted technologies

Lessons learnt

- Optimize existing good solutions
- South-south and triangular cooperation:
 - Study trips, regional assemblies
 - Example: Red Giresol in Latin America
- Long-lasting success:
 - Capacity building, adapt technologies
- Scaling up as final objective:
 - Planning (time and resources)
 - Ownership, standards, incentives
 - Networks and communication
